

ADVISED HIS SON TO RESIST HAZERS

Professor Ferrell Promised to Support Him, Even if He Killed in Self-Defense.

(Special to The Times-Dispatch.)

Raleigh, N. C., September 19.—Professor W. J. Ferrell, of Meredith College, when seen this morning relative to the reported killing of his son, Russell, at Wake Forest College, and the reported denial of the report, said the report of Russell's having been hazed reached members of his family and that he communicated with President Poteat and was informed by him that some of the boys made him out around the campus. Being overheated and exhausted as he was presumed to have been the reason for his being in the infirmary. Professor Ferrell says that while nothing was said to him at the time about his having been told by boys instead of college students, he can readily credit the statement that boys did it, as he knows that while he was a student at Wake Forest a considerable part of the hazing was done by town boys. Mr. Ferrell is outspoken in his denunciation of hazing in general, and says that when he started his son to college this fall he told him that when hazers got him he could dance and sing and at any other time they ordered him to if he wanted to, but that he would die first. He advised him to lock his room door and go to bed with a big stick when there was danger of hazers, and when they came to warn them that they could break open the door, but the first to enter would get the full force of the big stick. If it was necessary to kill a hazer in self-defense, he would hasten to his assistance and defend him before the college faculty and in the courts. Professor Ferrell is a member of the board of trustees of Wake Forest College.

Charters were issued to-day for the Farmers' Union Supply Company, of Cameron, N. C., capital \$5,000 authorized and \$1,000 subscribed by A. J. Mansley and others, and the Consolidated Bridge and Machinery Company, of Burlington, capital \$125,000 authorized and \$4,125 subscribed by G. W. Tolliger, R. W. Curtis and J. R. Hoffman. A charter amendment changes the name of the J. C. Marsh Company, of Marshallville, to Davis & Ross Company. Governor Ritchie went to Fayetteville to-day to make a senatorial campaign speech. He is billed for St. Paul's, Robeson County, to-morrow, and will be back in the executive office Saturday.

Attorney-General T. W. Bickett has furnished to State Chairman Charles A. Webb, of the Democratic State Executive Committee, an opinion construing the State election law as to registration books, holding that under the law the registration books of each precinct throughout the State must be open for new registrations of voters October 3 to October 23. Those who will have to register are voters who have changed residence and those voting for the first time.

The North Carolina Democratic committee on finances for the national campaign, Hon. A. W. McLean, chairman, conferred here to-day as to a strenuous campaign for raising funds, and will issue at once an urgent appeal to North Carolina Democrats. Here for the meeting were Colonel W. M. Osborne, Greensboro; Charles Brenner, Charlotte; Max Gardner, Shelby; General J. S. Carr, Durham.

Ferrell Not Injured.
(Special to The Times-Dispatch.)
Wake Forest, N. C., September 19.—Referring to a Raleigh special about

"Berry's for Clothes"

When you're reading about the tickets of the different political parties, don't forget our price tickets.

Suits marked \$20 stand on a platform of low tariff, the initiative (we initiate the new style) the recall (of your money if you're not satisfied) and the referendum, and equal rights to all our customers, man, woman or child. No favored class.

Everything for man and boy to wear. Suits for men \$18 to \$40.

For boys \$3.50 to \$15.

Fashionable Hats.

Fashionable Shirts.

Fashionable Scarves.

Fashionable Shoes.

W. J. Ferrell

hazing at Wake Forest College, published in The Times-Dispatch, I beg to say that Mr. Ferrell was taken from his room with his consent, but was not injured in the slightest degree, and has not been in the infirmary. No inquiry of the college authorities here was made by your correspondent, or he might have avoided the serious misrepresentation in the telegram.

WM. LOUIS POTEAU, President.

RESPONSIBLE FOR STRIKE

Operators in Other States Blamed for Trouble in West Virginia.

Charleston, W. Va., September 19.—D. C. Kennedy, secretary of the Kanawha Coal Operators' Association, testifying before the West Virginia investigating committee to-day declared the operators in other States were responsible for the present strike in the Kanawha district. Mr. Kennedy in this assertion backed up the contention of the operators for the competitive States of Ohio, Indiana, Illinois, and Western Pennsylvania absolutely controlled the wage scales in other States and he cited Iowa and Michigan as examples. These States, he said, were not permitted to have a representative on the scale committee, and have no voice in the scales even locally.

Evidence was offered with a view of showing that the joint competitive States are back of the movement to organize West Virginia for the purpose, it was contended, of controlling the wage scale in this State.

The commission then recessed until Saturday morning when it is expected President White and other international officers of the Mine Workers' Union will appear before the committee appointed by Governor Glasscock to investigate mining conditions.

POTOMAC OYSTERS ARE CONDEMNED

(Continued From First Page.)

diculate as an explanation that the polluted oysters obtained from points below Blakistone Island may possibly be attributed to purely local conditions. Of course the possibility remains that the pollution of the water extends much farther down the river in the fall of the year, at the beginning of the oyster season, when the oysters at the local wharves have been found to be much worse than at any other time during the season. Of course the only surety we have that the oysters found polluted actually have come from the locations from which they are purported to come is the statement of the owners and captains of boats engaged in the oyster industry.

The results of the investigation already made would indicate that any oysters taken above Blakistone Island are likely to be polluted and in such condition as to be considered under the food and drugs act as unfit for human consumption.

The department has been conservative in deciding upon conclusions based upon these rather extensive and detailed questions of public health and the ultimate oyster interests which are at stake seem so important that wide publicity has been decided upon.

Must Protect Water.

There is manifest need of wide discussion, much more investigation and immediate action on the part of the States and cities from which the polluting materials are discharged into the Potomac River. It is suggested that every typhoid patient should be quarantined and all contaminated clothing should be disinfected, and thus avoid infecting sewage, and that even in the case of typhoid carriers precaution should be taken to reduce to a minimum the pollution of river sewage by typhoid germs. Quarantining and disinfecting the excreta from several hundred patients in the city of Washington, and as many more in farm, village and city homes in territory tributary to the Potomac River, would be very difficult or expensive. It is also practicable by means of screens and other agencies to keep flies away from the active germs from infected patients.

The time has come when the Federal and State governments should employ sewage experts to advise concerning the care of sewage from the farm, village and the city, as we now employ experts to advise the wholesomeness of milk. It may be that a concentrated war on typhoid would reduce that disease to a small percentage of the present number of cases, or might even result in its eradication.

Safety in Cooking.

The results of these investigations emphasize the need of refusing to eat oysters from questionable sources unless very thoroughly cooked. The results of data already gathered would indicate that all oysters should be inspected with a view to finding all contaminated beds, that means may be devised to prevent their pollution. The experts assert that once the pollution is abated the oysters will become wholesome in a relatively short time. In some cases it is believed that it will be found practical to remove and destroy oysters from polluted water and plant them temporarily in nonpolluted beds, from which they may again be harvested after they have cleansed themselves of typhoid and other disease bacteria. The producers of oysters for public assistance in protecting the oyster fields, and other active bodies have here a new problem.

Numerous cities having successfully installed sewage disposal system which prevent contamination of adjacent waters, the practicability of this method has been proven. These systems of sewage disposal destroy not only the typhoid germs, but also otherwise purify the sewage waters, which, if allowed to contaminate the streams, may give rise to various intestinal troubles.

Fell From Street Car.

James A. Nunnally, of 342 South Laurel Street, was injured about the head and face last night when he fell from a street car in the act of alighting at the corner of Third and Broad Streets. Policeman Smith summoned the ambulance, and Nunnally's injuries were not serious. He was removed to Grace Hospital for further care.

Third Street Ended.

North Third Street was upset yesterday afternoon when a runaway horse fled northward with a wagon, dragging along the pavement a man who lost his foot when he became caught in the wheel. Before the animal could be halted William Turner, colored, had been badly injured in the knee and arm, and in addition he was cut and bruised about the face where he had been dragged by the runaway. He was treated by Ambulance Surgeon Hawkins.

By Cobb Visits Wilson.

Detroit, Mich., September 19.—One of Governor Woodrow Wilson's visitors after he reached his hotel here to-night was Tyrus Cobb, ball player extraordinary, with whom the Governor had expressed a desire to shake hands before leaving the city.

"I haven't seen you since we were together in Georgia, except that I have seen you play ball many times since then," said the Governor.

"Well, Governor, the next time I see you I hope it will be in the White House," replied Ty, after which the nominee invited the ball player to have lunch with him. The latter bashfully declined.

"The last time he saw me in Georgia I was on the stage. I'm glad he didn't refer to that," said Cobb with a grin as he left the hotel.

Hit on Head With Spade.

Otis Powell, colored, employed in the train sheds of the Richmond, Fredericksburg and Potomac Railway, at Eighth and Byrd Streets, was struck on the head last night with an iron spike wielded by an unidentified person who escaped. Otis was treated by Ambulance Surgeon Hawkins.

Workmen Take a Trouble.

W. W. Minor, of 2091 Richmond Street, was painfully hurt in the chest yesterday afternoon when he fell from a new building at Monroe and Broad Streets fell. Three other workmen with him escaped with a joint. The workmen were rescued by Ambulance Surgeon Hawkins, and he was later removed to his home.

Killed by Horse.

New York, September 19.—Johnny Kilbane, of Cleveland, champion featherweight pugilist, outpointed in their ten-round bout at Madison Square Garden here to-night.

COURSE IS POOR FOR AUTO RACES

Starter Wagner, After Hours of Work, Says Track Only Reasonably Safe.

Milwaukee, Wis., September 19.—Hundreds of privately owned automobiles speeding around the Wauwatosa auto race course to-day put the track in shape for the preliminary program for the Vanderbilt cup race to be held here to-morrow.

When the officials of the course were convinced that the efforts of some 500 road-builders and steam roller workers were useless, so far as drying up the course after days of rain was concerned, they called upon the private automobile owners of Milwaukee, and for hours hundreds of cars were run about the course. To-night Starter Fred Wagner declared the course reasonably safe.

Body Attachment Served on Pollok

(Continued From First Page.)

Hotchkiss that printed copies of letters taken from Schepps were accurate.

Hart, who arrived to-day from New York, declared that it is the contention of the defense of Becker that Schepps made assertions while in custody in Hot Springs as a Rosenthal murder case witness that will tend to show an entirely different motive for the killing of the New York gambler than simply a desire of gunmen to earn wages. He questioned several newspaper men informally this afternoon preliminary to the examination before a special commissioner of persons who talked with Schepps while he was detained in this city.

District Attorney Whitman is also here to attend the inquiry, which probably will begin Monday of next week.

Whitman Issues Statement.

Hot Springs, Ark., September 19.—District Attorney Whitman, of New York, issued the following statement to-night in reply to assertions credited to Mayor Gaynor:

"I have seen only the telegraph dispatch to the press here, so I have no detailed knowledge of what has been said.

"The secrets of the grand jury have not been violated, as every member of the grand jury knows. The minutes of the grand jury have not been made public since I was district attorney, except by proper order of the court, and every judge of general sessions and every Supreme Court, whenever such a suggestion was made, has been able to satisfy himself on this point, and in some instances has done so by the merest reference to the grand jury minutes.

"It is no statutory offense for the district attorney to reveal testimony given to the grand jury, although I agree that no conscientious public official would do so except as provided by law.

"It is interesting at this time to recall the fact that something more than a year ago Mayor Gaynor was himself a witness before the grand jury. He complained for publication on the following day that his testimony had been made public by me. It developed that the statement in question which related to the retirement of Deputy Commissioner Flynn was not made by Mayor Gaynor before the grand jury at all, and that he had been examined in the grand jury room by George Gordon Battle and Frank Moss and not by the district attorney, who was not even in the room when the subject was referred to.

"I don't propose to be diverted from the prosecution growing out of the murder of Herman Rosenthal, and I intend to ignore any further efforts to belud the real issue. If the Mayor or any other citizen has any charges to prefer against me he is at liberty to do so and the sooner the better."

Benefited Many Who Had Tuberculosis

Those who suffer from Consumption are generally troubled with night sweats, fever, loss of strength and little or no appetite. Fresh air, good food and the proper care of the body are essential to a recovery, but in many cases something more is needed. Eckman's Alternative is a medicine which has been most successful in stopping night sweats, reducing fever and promoting health and many who have used it declare it saved their lives. Investigate what it did in this case.

"I suffered for four years I was troubled with cough, which gradually became worse. I had night sweats and pains in my chest. I was losing my appetite and had become so thin and weak I could not attend to my household duties. A physician pronounced my case Consumption. Not being satisfied with the treatment, I was ordered to a Consumptive Hospital. They also pronounced the disease Consumption, which was proven later by an examination of sputum. I was ordered to Eckman's Alternative. I had taken Eckman's Alternative three weeks I had marked relief, night sweats ceased, gain in the breast relieved, cough became less and easy, fever subsided, I became normal. I am in excellent health now and have been completely cured for ten years. I strongly recommend Eckman's Alternative to all who are suffering from Consumption. A physician pronounced my case Consumption. Not being satisfied with the treatment, I was ordered to a Consumptive Hospital.
